

Reading and Video Report Explanation...

The Questions:

- Why do the students need to report the percentage of the Modular Material and/or the Reading Assignments that they read??
- Why do the students need to report the percentage of the Module Videos they watched??

The Answers:

- The first point in the Course Syllabus located in the top section of each module states; **“Please read each lesson BEFORE coming to class”**. The MDC Online Instructor is not present to potentially ask each student if they read the material before class so the Reading Report takes the place of that question.
- The second point in the Course Syllabus located in the top section of each module states; **“Please watch all of each lessons videos either in class or on your own for each lesson”**. The MDC Online Instructor is not present to potentially ask each student if they watched all the videos for this lesson so the Video Report takes the place of that question.

- It is a matter of INTEGRITY. The Lesson Material and Videos are Vital to the learning process of the Modular Course of Study. It is very IMPORTANT that you read all the Lesson Materials as well as the added reading assignments that are taken from the Student Guide and the Nazarene Manual. It is equally important that you watch all the Lesson Videos as part of the learning process.

The MDC Online Instructors and Staff want to see you succeed in the Modular Course of Study. We are continually seeking ways to make the learning process as user-friendly as possible. Please feel free to contact us if you have any questions/comments/concerns.
